The myth of clean energy

It is a common perception that green energy resources are ultimate saviours of humanity and an alternate to traditional energy resources. But clean energy resources also have ecological impacts in one or other way. Mining for getting raw materials leads to vegetation loss, habitat loss and chemical contamination. Production of electric cars' batteries emits more carbon than production of traditional engine. Wind turbine blades and solar plates are non-recyclable and uses fuel from production to installation, making net carbon zero a utopic concept. The urge to make planet green is cashed and manipulated. The way to sustainability lies in efficient use and not in industrialization in name of clean energy, which is only devastating the issue.

Q3 Read the following ... follow.

Ans 1 Timothy Dexter's rivals advised him to ship coal to Newcastle as they were fed up of his back to back successes in business and wanted to give him a setback. The intended outcome of this suggestion was an ultimate failure and huge financial losses.

Ans 2 When his shipment reached England, there was a strike by mine workers. This had led to no production of coal in England and a severe coal shortage. So all his coal was sold and thus his foolish venture transformed into a profitable success.

Ans 3 The author, through the story of Dexter's success, shows that luck overrode the intelligence. The Dexter back to back successful trade journeys from England to Caribbean and then West Indies show that luck has an overwhelming edge over intelligence.

Ans 4 Dexters repeated success challenges the traditional concept about business, wisdom and education. His back to back successes in business while having a little know how of education and little intelligence shatters the foundations of traditional ideas that education and wisdom are pre-requisite for a successful businessman. His success shows that luck is above all these traditional norms.

Ans It can be inferred regarding human perception of "genius" and "foolishness" from the way Dexters rivals reacted to his achievement that only genius can decide regarding critical decisions of business and ~~that luck does to~~ only a genius can take profitable decisions regarding business.
