Feroza Meer - English P4C Date _____

Question No: 3

1. Why did Timothy Dexter's rivals... outcome of this?

Ans: Newcastle was a city in England with already enormous supply of coal. His rivals advised him to ship coal to a newcastle ~~as~~ ~~there~~ with the intension that he would lose everything ~~and~~

2. What unexpected event... profitable success?

Ans: His rivals didn't know about a strike of miness in England. Dexter sold his consignments for heavy profit as the strike caused the local production of coal to stop and a sudden shortage was observed.

3. What does the author... Dexter's success?

Ans: The author implies that Dexter's success was purely a game of luck. The decisions he took ~~had~~ no proper business planning. They went against the business strategies yet he was succeeded which shows that he had a good charm of luck.

4. How does Dexter's repeated sucen... education?

Ans: Dexters success unveils the other side of business development techniques. It teaches us how sudden and rapid changes in the market can be used to make profit. Despite all the good knowledge and education, it is not necessary that every situation can be handled with conventional methods.

5. What can be inferred ... his achievements?

Ans. Extraordinary people are always unique. Whether they are extremely genius or extremely foolish, yet they are unique and think differently. The story shows that the real genius is one who breaks the rules and still wins the game.

Question No: 4

Question No: 5 A

The prisoner looked through the narrow window, and said, "They call this justice! yet I have

never been heard." The guard replied softly, "Orders are orders Sir, freedom is not decided here." A journalist outside shouted, "The minister claimed, No one is above the law." "But, who decides what law means, when truth is behind the bars." The cell fell silent. The prisoner smiled faintly, and whispered, "They can cage a man, but, not his conviction."

Question No: 5 B

~~10th~~

Question No: 7.

If a Professor of Urdu claims that he

understands the discourse of Ghalib very well, and can create beautiful environment by a comprehensive discussion of his artistry, then indeed, he is showing his literary excellence. But, if he is asked to ~~analyse~~ write a verse, he would become helpless. Because Intelligence and ~~innovation~~ invention are two separate worlds. Intelligence is the creation of mindfulness while, invention is the result of revolution and spirituality. The status which was destined to Ghalib, was not only because of persual and delligence but was a manefastation of his unusual intelligence, emotions and divine guidance. This is the reason why his poetic verses affect our hearts as they did in his time, even after centuries.

Question No: 2

It is depicted before people that renewable energy is better for our environment by commonizing terms like neutrality and ^{net} zero, but, the results are contradictory. For clean technology earth's resources like cobalt & lithium are extracted which compromises environmental well being. Congo, Chile and China have also suffered land poisoning and other environmental damages. Electric vehicles also play apart since there batteries use more carbon, ~~have~~ are less durable and cause electric waste. Similarly, turbine blades are nonrecyclable, solar panels turn into toxins after some decades. The green labels, instead of being helpful, have become a new challenge for a better environment
