

Q. Choose the Word nearly most similar in
A. meaning to the capitalized word.

1. GARROLOUS = Loquacious

2. EBULLIENT = Exuberant

3. MACABRE =

4. SMEAR = Stain

5. INDIGNATION = Rage

6. UNSCATHED =

7. PEEVISH = ~~Rage~~ Crabbed

8. PALE = Gloomy

9. SUPPLE =

10. Approbate = Endors

B) CHOOSE The Word that is most opposite
in the meaning to the capitalized
word.

1 CAJOLE

~~Coerce~~

2 SACCINCT

Verbose

3 RANCOROUS

Amicable

4 SPARDONE

gentle

5 RECALCITRANT

6 MELLIFLOUS

Cacophonous

7 GALLANT

8 BREAMOAN

APPLAUD

9 EXTIRPATION

10 DEBAUCHED

Virtuous.

Q2: MAKE A PRECIS OF A FOLLOWING
~~THE~~ MESSAGE AND SELECT A
SUITABLE TITLE:

GREEN R

Green Revolution, A Deception:

Renewable energy is seen as a solution to environmental problem but the hidden hazards are not taken in notice. People think the lowering the carbon to zero will reduce the environmental hazards but in reality, the fancy terms like carbon neutrality and net zero are just terms because it mitigate the environmental crisis but the expensive and destructive procedure will cause more risk. Solar Panels, Turbine, electric vehicles itself are so expensive. Countries like China, Congo and Chile uses vast lands for vegetation but the means are harmful. The technique of mining cobalt and lithium are so destructive that they put the lives at risk, making the environment toxic, so replacing one hazardous method with another. Electric vehicles are overrated for reduced carbon emission but the

fact is they give out more carbon than conventional engines and when their battery dies and they get obsolete they contribute into even bigger piles of electric waste. Calling electric vehicle progressive is nothing but deception. On the other hand solar panels and turbines are equally hazardous. As the parts of turbines ~~are~~ can not be recycled and solar panel servicing adds more into toxic waste, making clean environment a dream. Moreover, their maintenance is dependant on fossil fuels when it comes to transport. It shows that zero carbon is a dream by replacing one method of environmental pollution with another.

Word count = 259 words.

23. Read the following passage and answer question that follows

In late 1700..... Can have.

1 Why did Timothy Dexter advise him to ship coal to new castle and what was the intended outcome of this suggestion

Ans 1: Dexter's rivals advised him to ship coal to Newcastle, the city which is known already for being coal rich. They wanted to ridicule him and wanted to make him lose his wealth and reputation.

Q2 What unexpected event in England Dexter coal venture into profitable success.

Ans3 As the city was already coal rich that needed no coal but when Dexter arrived there was miners' strike that made coal scarce in Newcastle and sudden demand of coal at huge profit turned the foolish venture into coal.

Q3 What does author imply about relationship between luck and intelligence in Dexter's case?

~~Auth~~

Ans Author implies that Dexter's case is the blend of luck and confidence and not traditional intelligence. His weird decisions and good outcomes were just because of fortunate circumstances.

Q4 How about Dexter's repeated success in turning mockery into profit challenged conventional ideas about business wisdom and education?

Ans His luck and bold steps challenged the conventional business patterns that makes traditional education a criteria for successful business but sometime its the luck, the tendency to take risk can turn loss into benefit.

Q5 What can you infer about the human perception of foolishness and genius from the way Dexters survives.

We can infer that sometime unconventional thought system makes the people doubt the ability but if one foolish step turns into success than this same stance can be restructured.

Q 4: Correct any five of the following:

1 Corrected: We accepted their offer on the ground that something is better than nothing.

2 Corrected: Use a cup full to half bowl of water.

3 Corrected: The bag was so heavy that I could hardly lift it.

4 Corrected: She advised me never to point my finger at anyone.

6: Corrected: Neither of the two applicants had suitable qualifications.

Q 5 A: Punctuate:

The Prisoner looked through the narrow window and said, "they call this justice yet I have never been heard." The guard replied softly, "Orders are orders Sir. Freedom is not decided here." A Journalist outside shouted, "The minister claimed no one is above the law." but who decides what law means, when truth

is behind the bars. The cell fell silent, the prisoner smiled faintly and whispered they can cage a man but not its conviction.

B: Rewrite the following sentence after fill in the blank with appropriate preposition.

- 1 Tehmina applied in a bank for loan
- 2 She died of starvation
- 3 Look to the left and you will see the destination.
- 4 We saw movie at the theatre
- ★ We all sat at the table

Q: Use only 5 in your sentences to bring out the meaning.

1. A fish out of water
I felt like a fish out of water when I was around strangers.
- 2 To give the devil his due:
She is so arrogant, I will give the devil his due as she worked hard.

6. On pine and needles.

I was on pine and needles while waiting
for my final result.

Q7. Translate the following into English
keeping in the view of figurative/
idiomatic expression.

أليس ب... ..

If an Uncle Professor claims to understand
Ghalib's poetry and can captivate the
audience, no doubt he is well equipped
with knowledge. but here ~~the~~ knowledge
and understanding are not enough because
he would not be able to deliver the poetry
the way, Mirza Ghalib would do and
would cast a spell. Professor would
feel helpless here because understanding

is one thing but creativity is another thing.

Intellect is to reason while creativity

is intuition. The genius the Ghalib got
was divine gift that does not come

from study only. ^{This} ~~That~~ is the reason

that his poetry still impacts us

the same way as it used to in

Ghalib's era.
