that he can well known about the  
verses of Galib then he could eloquent  
speak on his art scripts, he ~~do~~ would  
definitely show his ~~knowledge~~ capabilities,  
ties, however if closely examined he  
could not say a verse like him, he  
would be helpless. Because knowledge  
and creations are two different  
✓ worlds. Knowledge is the productivity  
of intelligence, however creation is  
upshot of God gifted revelation.

benefit benevolence, and Godgiver.

a long period his poetry in-  
spired similarly as it did since before

Work on Sentence Structure and grammar

These green energy devices itself demand huge costs. Every clean technology needs rare-earth minerals that are extracted through energy consuming mining practices. The fertile lands become toxic through these eco-friendly materials. Similarly, wind and solar plants are clean in mechanism. But, their infrastructure requires toxic, non-renewable materials. Their maintenance depends upon the transportation of these materials by using fossil fuels. This green energy is just for flourishing business instead of reflecting about reality. It requires effective sustainability instead of another way towards industrial exploitation. The planet not only requires renewable energy but also some other way to clean it.
