: Question no 2 :

Title : The Hidden cost of Green Technology.

The Deception of Green Energy

04/20

Avoid cutting

Renewable energy, as publically seen as a moral salvation against fossil fuels, has hidden environmental hidden costs. Clean technologies like solar panel, wind turbine, and electric vehicles require rare minerals from harmful mining, leading to uninhabitable lands, and pose recycling challenges. The emphasis on "Green labels" turn environmentalism into a marketing strategy, rather than a path to genuine stability. The planet isn't being healed by renewable energy, it's being wounded differently.

Overall understanding the idea is ok

Title needs improvement.

Grammar is ok.

Work on length of Precis, it should be 1/3rd of original passage

Question no 7 :

Translation

05/10

If any professor of Urdu Language claims that he is capable of understanding Ghalib's artistic work and is able to talk on his artistic aspects continuously for a long period, then, indeed he is demonstrating his knowledge. But when he is demanded to produce a stanza like Ghalib's, then, he will be helpless. Because understanding and creation are two entirely different realms. Understanding is a product of mind while creation is the result of inspiration and conscience. The status awarded to Ghalib cannot be achieved by hardwork or studying, but was due to specific intelligence, sense, and was as if "God Gifted". That's the reason that even after decades, his poems affect hearts, just like they affected during his time.

Attempt in idiomatic and proverbial manner
Focus on grammar please
Do not attempt word by word
