### Question 3

#### 1

Timothy Dexter's advised him to ship coal to Newcastle because it is a well-known city for unlimited supply of coal. The intended outcome of this suggestion was that they expected him to deprive of everything.

#### 2

When Dexter's ship reached England, the local production was stopped due to miners's strike which caused an unexpected shortage. Due to this situation, his entire cargo was sold at a large profit. In this way his foolish venture turned to be a great victory.

### 3

According to the author, Dexter's success was not just because of luck. People used to underestimate his ability abilities which proved to be a blessing for him. It was the interplay of luck and intelligence that resulted in his repeated victories.

### 4

Dexter's repeated success in turning mockery into profit challenged conventional ideas about business wisdom and education in two ways. Firstly, he proved it underestimation can be turned into victory through proper strategies in business. Secondly, he also made it evident that no matter what people say, at the only <sup>one's</sup> ~~for~~ success speak

5

The way Dexter's rivals reacted to his victories show that it is human foolishness to degrade their opponents by improper means. Dexter's successes highlight that human perception ~~of~~ of foolishness and genius are often misperceived.

The Deception of Green Energy

### The Invisible Cost of Renewable Energy

Renewable energy is ~~fantasized~~  
fantasized by humans as an  
alternative to fossil fuels. Terms

Write clear and short sentences  
Avoid complicated sentences

Like carbon neutrality and  
net zero emission are used  
by activists of various sectors  
in a way like they are  
the solutions of all problems  
of the planet. There are various  
sources of renewable energy.

The manufacturing of these  
sources require natural resources.

The extraction of these resources  
causes ecological destruction. The

mining practices ~~take~~ place in  
poor regions and degrade their  
environment. The progress of

green technology brings destruction.

Pollution, extraction and waste  
are other sides of sustainability.

The function of these sources often require fossil fuels; this makes ~~not~~ zero emotion a slogan.

Green technology is turned into a market product rather than causing philosophical awareness. Renewable energy is not a panacea to earth problems. It causes many degradations.

~~Humanity's green enthusiasm risks merely wounding the Earth anew instead of healing it.~~
