The Deception of Green Energy

## Q2:- "The Paradox of Green Energy"

06/20

Renewable energy is often glorified as humanity's moral salvation and the cure for environmental damage.

Overall understanding the idea is ok

Title needs improvement.

Grammar is ok.

However, behind this "green" facade lies a disturbing contradiction - The renewable revolution is exhausting the planet through destructive mining of lithium, cobalt, and rare-earth

minerals. Countries like Congo and Chile suffer ecological devastation as

clean technologies demand massive resource extraction. Electric vehicles,

though seen as eco-friendly, produce more emissions during battery

manufacturing and create e-waste challenges. Likewise, wind turbines

and solar panels generate toxic waste

and rely on fossil fuels for production.

True sustainability lies not in

industrial expansion disguised as

virtue, but in moderation, efficiency,
