The Deception of Green Energy

Dark side of Green Revolution

Renewable ^{energy} has been presented to the public as a moral salvation from a past tainted by fossils. All its stakeholders promote it as a holy promise of planetary healing, but beneath all this, this energy is exhausting the planet.

Precis must be written in single passage.
Follow the basic rules of Precis.

The clean technology comes with hidden costs and use rare-earth metals, which are mined from poorest regions, and this process renders them uninhabitable.

Furthermore, this technology has a limited lifespan, and pose recycling challenges, and its infrastructure require fossil fuels. The tragedy is that humans are morally satisfied with this and has turned it into a marketing enterprise. True sustainability requires efficiency, restraint, and systemic humility. Right now, instead of healing the planet, we are just creating another environmental crisis.

Precis should be one 3rd of original passage
Your passage reflect the original idea
Don't take direct sentences from the passage
It is not the narration do precis
Title should be self-defining and self-explanatory to the passage
Make a Precis in Single Passage
Always write in third person

1- Dexter's rivals advised him to ship coal to Newcastle because they were tired of his success and wanted to humiliate him by making him send coal to a place with an endless supply of coal.

The outcome they expected was that he would lose everything.

2- The unexpected event in England was that due to a miner's strike, local production had stopped and there was a coal shortage. So, when his ship arrived at Newcastle he earned huge profits.

3- The author implies that Dexter was not considered an ^{foolish??} intelligent person, he was undermined and that was his best advantage. There is no relation between luck and intelligence in Dexter's success.

4. ~~Conventional~~ Business wisdom

Had Dexter used conventional business wisdom and education he

In comprehension answer each question comprehensively
