understands the discourse of Ghalib very well, and can create beautiful environment by a comprehensive discussion of his artistry, then indeed, he is showing his literary excellence. But, if he is asked to write a verse, he would become helpless. Because Intelligence and imagination invention are two separate worlds. Intelligence is the creation of mondfukar while, invention is the result of revolution and spirituality. The status which was destined to Ghalib, was not only because of persual and delligence but was a manefastation of his unusual intelligence, emotions and divine guidance. This is the reason why his poetic verses affect our hearts as they did in his time, even after centuries.

In Précis writing, the use of first person pronouns like I, we, our, us is considered a blunder

It is depicted before people that renewable energy is better for our environment by commonizing terms like neutrality and zero, but the results are contradictory. For clean technology earth's resources like cobalt & lithium are extracted which compromises environmental well being. Congo, Chile and China have also suffered land poisoning and other environmental damages. Electric vehicles also play apart since there batteries use more carbon and plastic are non-recyclable and cause electric pollution. Similarly, burning blocks are nonrecyclable, solid garbage turns into toxins after some decades. The green labels instead of being helpful, have become a new challenge for a better environment
