Answer the Questions

Ans 1 Timothy was an unconventional but successful businessman. His rivals were jealous of his success and they suggested him to ship coal to Newcastle, a city that had ample coal supply. The intended outcome was to humiliate Timothy and destroy him financially.

Ans 2 The unexpected event that transformed Dexter's apparently foolish coal venture into a profitable success was a miners strike. Miners stopped working and it created shortage of coal.

Ans 3 Author implies that confidence is needed with intelligence to make bold decisions at the right time, only then the luck will support anyone. So Timothy gained success, not only because of luck but because of his confidence and intelligence.

Ans 4 Business wisdom and education are conventional but theoretical ideas that only half prepares a person of a ^{practical} ~~real~~ world. A person also needs experience ~~and~~, a wit to do business and

2 must have nerves of steel to be successful in the real world, skills that no conventional education institute can teach but ^{are} taught by the market itself.

(Ans 5)

World has its own, conventional way of weighing others and by using it, they label one as a foolish or genius. It works mostly but not on the unconventional people who have their own way of thinking and challenges the conventional ways. Timothy Dexter was one such unconventional and successful businessman who was termed as foolish due to jealousy by his peers but his repeated success also made his rivals admit his ~~genius side~~ genius side.
