The Deception of Green Energy

Clean Energy, Costly Consequences

Renewable energy is widely hailed as the planet's moral redemption

06/20

According to man, the cure for fossil fuels lies in renewable energy. This is supported by various politicians, corporations, and environmentalists, however, perhaps they are not aware of the other side of coin. Renewable energy comes with its price, too-rare earth minerals and pollution too. The

extraction of rare earth minerals caused severe consequences to habitat, out of the frying pan and into the fire. For example, battery production of electric vehicles is releasing more carbon than traditional. Similarly, turbine blades and solar panels along with these batteries cannot be recycled—becoming the pollutant. Moreover, for their maintenance, dependence lies on fossil fuels still. What is more ironic is humans morality who have turned this into a marketing enterprise. The truth is that the planet is not being healed—it is just bleeding

TRANSLATION

If a professor of Urdu claims that he understands Ghalib's poetry thoroughly and can, while discussing its artistic manners, captivate the audience with his insightful conversation, then he is indeed displaying exceptional talent. However, if he is asked to write a verse like Ghalib, he would be rendered speechless. Understanding and creation are two different realms - the former is the product of intellect, while the latter is the outcome of intuition and divine inspiration. The eminence Ghalib attained was not merely the fruit of study or hardwork, but the result of extraordinary intelligence, profound empathy, and a spiritual connection with the divine. It is for this very reason that his poetry continues, even after centuries, to touch hearts just as deeply as it did in his own time.

Attempt in idiomatic and proverbial manner.
