Renewable energy has ruled as a moral salvation in public opinion. Numerous stakeholders use fancy terms like carbon neutrality and net zero and their promises seem to heal the earth. However, this glossy facade leads to other complexities as green revolution put earth into exhaustion. The invisible cost of solar panels, wind turbines and electric vehicles is ignored with rhetoric. The clean technology is achieved through extraction of rare-earth metals. Mineral-rich states often endured the multiple negative impacts of extraction, ranging from food to life habitation. Moreover, as Electric vehicles concern, the production of EVs' batteries
