Q NO. 2

The Deception of Green Energy

# The Green Paradox

07/20

Overall understanding the idea is ok  
 Title needs improvement.  
 Grammar is ok.

Renewable energy is widely viewed as a moral solution to climate change but its production conceals significant environmental damage. Technologies include solar panels, wind turbines and electric vehicles require vast amount of rare-earth minerals, extracted through destructive mining practices. Electric vehicle batteries emit high carbon during production and pose recycling challenges which contribute to electronic waste. <sup>Similarly, wind</sup> However, wind and solar farms are clean in operation but generate non-recyclable waste and rely on fossil fuels for infrastructure. This green paradox reveals that the green revolution; is marketed as sustainable progress actually perpetuates ecological harm. The true progress requires awareness and rethinking of industrial priorities.

Q # 03

The author implies about the relationship of between luck and intelligence in Timothy Dexter's success that the unconventional thinking or decisions when paired with good fortune, can lead to remarkable outcomes. In Dexter's story blurs the line between luck and intelligence.

Q # 04

Dexter's ability to turn ridicule into opportunity shows that being underestimated can be a strategic advantage. His life story reframes success as something not always rooted in traditional wisdom or education but sometimes in audacity, luck and the ability to see opportunity where others see folly. That's how Dexter's success challenged conventional ideas about business wisdom and education.

Q # 05

It can be inferred that human perception is often shaped by appearances, assumptions, and outcomes rather than objective truth. People tend to label others as foolish or genius based on social norms, education, or initial first impressions. However, when someone like Timothy succeeds despite being mocked, it reveals that perceived foolishness can mask unconventional brilliance and that success can challenge and reshape public opinion.

If any Urdu professor claims that he understands Iqbal's poetry and ~~can~~ he can talk about every technicality of his poetry so he must be showcasing his educational capabilities. But if he is being asked to ~~in~~ write poetry like Iqbal, he would remain helpless. Because creativity is born from intellect and understanding. While creation is often the result of effort, it is also gift of rare and extraordinary sensitivity. Iqbal got ~~that~~ <sup>the</sup> status that is not merely the outcome of hardwork, but a divine and uncommon spark that leads innovation and insight. This is the only reason that his poetry continues to echo even after he has gone.
