- 10 b- depraved.

PART II.

Q2- Make a precis of the following passage and suggest a suitable title:

⇒ **Title:** The Deception of Green Energy

Renewable Energy: A ~~N~~ New Threat to
ecosystem

Renewable energy is seen as eco-friendly and as a good-bye to traditional energy. carbon-free ecosystem, a term used by leading environmentalists, itself is a threat to the planet earth. Morally, one one eco-friendly issue is being replaced by another. The modern energy producers themselves contribute to pollution. Minerals are required to operate them, which is eco-friendly. Cultivable lands are being ruined with hazardous chemicals and being made unhealthy with such replacements. Electric motors are considered as eco-friendly. But carbon emitted by their batteries is higher than those outdated engines. These power houses last early and can't be replaced & recycled, which result in wastes and pollution. Wind and solar power houses further threaten ecosystems. Due to non-renewable nature, the blades of wind turbines and solar plates add additional waste to the already alarming one. constructions and supporting sustenance depend on traditional energy for deportation and support, making

zero emission as a mere slogan. This hypocrisy lies in moral understandings, not in advancement. Such enthusiasm promotes advertisements rather than philosophical motivations. A different way is required to treat our earth rather than renewable energy.

In Precis writing, the use of first person pronouns like I, we, our, us is considered a blunder.

No. of words required: 135

No. of words in precis: 142

Q3: Read the following passage and answer the question.

In comprehension answer each question comprehensively

Do not be irrelevant in your answer

06/20

Please enhance length of each answer

Read the passage carefully

2: Dantes' business were tired of him and his profits. To deceive him, they suggested

to ship coal to the Newcastle, England.

It was a famous city for the consumption of coal. But, luck favored him and he took advantage of the shortages of coal in the city.

Q:

Ans: When he reached England, the miner's strike had abolished the local production of coal which created a shortage in coal supply.

He had an opportunity to sell all his coal at a decent price.

3:

Ans: The clutter stressed luck over intelligence.

As Dantes was a fool but lucky at the same time. And ultimately, the luck won.

him a great advantage.

4:

Ans: Due to his luck, Dexter had advantage in his every idea over the conventional and traditional business ideas and education.

5:

Ans: While, Dexter's enemies had no idea about his luck. Therefor, They suggested many foolish ~~the~~ business ideas. And he followed ~~it~~ them but succeeded. So, The enemies of Dexter had nothing but shame.

Q4:

02/10 correct any FIVE of the following sentences:
