## Women Empowerment

In early ages, education of women were limited due to traditional gender concept. With the passage of time, internet has changed the thoughts of people and promoting the education for women. Women empowerment is a process to enabling them for their rights, freedom, and educate the women. The main goals to provide them access for their rights, and spend their lives happily in society. This phenomenon refers to improves the statue of women, educate her, ~~and~~ provides information them about their contribution for the progress of community. This concept <sup>give</sup> equal rights to women for education to get their goal in society. It plays important role when a women is educated, it tends to improve the economic statue, <sup>and</sup> provide supports to family. when empowering women become doctor, engineer, teacher it plays vital role for their families. Even, microfinance initiatives provides small

loan to women entrepreneurs to spend their livelihoods. Educated women can make decisions very well as compared to uneducated women. Education gives confidence & freedom to her. Even, in many countries women holding position in parliament and playing their role for the development of community. It is basic right of women to give her freedom to persuade their goal and equality. Ultimately, women empowerment is not a women's issue; but it a global problem to hinder women to contribute in society.
