Unlike other years, Pakistan performed very well in the year 2020. Several progressive moments were observed in several sectors and laws. If we talk about foreign policy, it remained Goals Oriented and balance to keep good terms with all in the favour of National Interest. Internationally, Pakistan is now considered as the regional stabilizer, not the problem to fix. Alongside, a successful victory in May conflict, after false play operations by India in Pothohar, the Pakistan is considered as the the regional balancer and Indian hegemony questioned. export based Economy and signed trade deal of four Billion dollar with Libya. But Pakistan also faced some issues in the year 2015 that give loss to the country. The recent flood in Province Punjab and KPK has devastated infrastructure, swept away buildings, displaced millions and killed in hundreds. Although the hope is there that the year 2016 will be a fortunate year that will help Pakistan to raise Economic growth and ensure best friendly relations to ensure national interests.

Libya that will help them to counter  
Israeli Aggression. This is a major win  
for Pakistan that transitioned Pak's  
Economy from Agrarian export based to  
Arms Export Based.

Extending Security partners  
is a key milestone event / moment for  
Pakistan. In the Sept 2015, Pakistani  
Prime Minister Shaukat Sharif signed a  
mutual defense pact with Muhammad bin  
Salman of Saudi Arabia. The SMDA is  
based on "the aggression against one is  
aggression against other". Just like Article  
5 of NATO charter, both countries can  
deter their rivals and can maintain  
Balance of power in the region. Up to  
what extent both countries will cooperate  
with each other, it is deliberately un-  
published but the intensity of

Cooperation will decide the intensity of the pact.
