QUESTION # 02

INTRODUCTION

The United States of America after suffering war of Independence. Finally adopted their constitution in 1789. It was written in 1787 and Madison is known as the father of it. The debate of federalists and ^{anti-}antifederalists has a special focus in history of USA. The shift from federalist to anti-federalist was the first peaceful shift in history, where two different ideologies transitioned constitutionally. The administration of federalist have many accomplishments and played crucial role in early setup of USA ~~and~~ governance.

Background

There were two groups holding

alternative system for government.

The Philadelphia convention provided a forum to alter and revise the constitution.

The two groups emerged, New Jersey plan was given by small states and they favour confederation. Virginia plan was given by big states and they favour federation.

The first constitution of USA was 'Articles of confederation' but it led to segregation in society. So, second constitution was adopted and it was limited federation in nature.

The first two presidents of USA including, George Washington and John Adams were federalists.

They govern USA as a federation and the accomplishment of this initial federalist administration includes the creation of bank, strong army, trade and nationality related

steps.

A) Strengthening Center

The Federalists were those who had huge population. They wanted strong center. The weak center in previous constitution was inefficient to unite the state. The strong federal can unite all states and ensure their internal freedom. The states were independent in internal affairs but center also had hold on them.

B) Creation of Bank

The anti-Federalists were against the creation of 'Bank'. They believe it is a tool by the center to control capital of state. They will enforce their terms by controlling capital. However, federalist administration claimed that bank is essential it will regulate other small bank. Also, it can be adopted

for short period of time. If it turned out to be a wrong decision it will be revived.

c) Tax collection

In articles of confederation, the center was so weak and can not collect taxes. As they were fed up from the 'mercantilism policy' of UK. So, they were never in favour of tax imposition. Whereas, Federalists claimed that is the source to govern center. The revenue will be used to pay government employees and therefore they established a system for tax collection.

d) Strong Army

The people of USA disliked strong army in general. There were no army in center and states hold their separate armies. The

center called those armies when there is war. Those were like mercenaries. That's why, federalists claimed that strong army is not only a tool of oppression. Rather it is crucial to protect state from external interventions.

E) Nationality of USA

The federalist restricted immigration to the new land which is now America. They set rules for getting nationality of USA. If anyone wants to be a national of USA, he/she have to live for 14 years in USA.

F) Trade decision

The federalists were adopted kind of protectionism. They limited the trade, not smooth with tariffs and with limited countries.

G) Representation of Population

The federalist and anti-federalists were
