Question 2 Precis

The modern expertise has brought complications in human life because specialized understanding makes human less able to manage humanity concerns. For this, specialization in one ~~are~~ field does not create a prudent human as it gives a narrow understanding of reality. Just like, economist sees human as obtaining maximum benefit at minimum price, biologist sees as a source of reproduction and psychologist looks human as a individual with learned behavior. Each perspective unearth reality

but humans have bad tendency to neglect the truth. Moreover, specialized understanding left humans to look at the problems that belong to multiple categories just like climate change. It is a conundrum of ~~every~~ ^{each} human but organisation has pressurised individuals to handle as per their expertise. The medieval thinker give a fortified perspective - the universe that world is a broken mirror that does not provide clear knowledge. Furthermore, expert opinion has reduced individual's common sense and judgement. They relies on expert's opinion about nurturing of children and managing relations. This over-reliance make agile citizen to accept expert's opinion. Henceforth, society need individuals with diverse knowledge and educational institution should encourage broad learning rather than specialization. Besides this, individuals need to revive their intelligence power for better decision making. Until it is done, individuals would be blind at solving problems in the large scale.

Title:- Specialized knowledge: A Gigantic Conundrum in Human's life

Question 3 Comprehension

Q1

The fundamental error author has identified in the popular understanding of tradition and progress are that individuals are gripped with tradition and progress in a locked ~~into~~ eternal opposition. Besides this it was innovation and rapid progress and development that reflect the power of forth coming days being broken by outdated stumbling blocks.

This error is considered as dangerous because progress and development are the factor that creates delusions and hypothetical imagination on the human mind.

Q2

The author use historical examples to challenge the notion that progress requires abandoning the past are each big revolution in human history come because of creative reappropriation not because of neglecting the past. Author ~~gave~~ gave the example of European Renaissance that they also looked backward to classical antiquity even they moved forward in the modernity. Author also mentions about the religious reformers who brought revolution,

reform and change based on previous experience. Besides this, author also mentioned about the scientific revolution that were hinges on the studies and works on the earlier thinkers.

Q3

The writer mean by describing tradition as 'a living conversation across generations' rather than 'a static repository of dead customs' was that history repeats itself. Real progress and development needs basic roots. The author give the example of ~~civilize~~ tree that just like a tree does not grow without roots. Similarly, a civilization does not grow without generations. Author further says that when an individual declare emancipated from the history, he do not become free but he become rootless and will be ~~exode~~ by the catastrophe or any ideological wind.

Q4

Question 7 Transition

Literature is a representative of any society. It regulates societal morality and spirituality. When any nation's literature is in decline then it should be understood that nation is unable to meet its goals. Alas, today, literature is bound to the bazaar's only. Mafiz has captured this under their control. The writer sells his pen just for financial benefits. With that he also sells his conscience. The real

literatures are those who speak for
truth and raise voice against the
prosecutors. Regardless of how much
he has to give sacrifices. In the
Today's world such literature are not
born.
