Q NO 7

Translation

Our society's dilemma is that everyone talks about change in rallies and meetings, but when it comes to self accountability everyone avoids it. In daily life, slogans are raised and reforms are discussed, but still compromises are made even on principles. This double-standard has made society two-faced, on one side we build dream palaces, and on the other side we fear truth and accountability. Nations are built through action, not slogans. A society improves only when individual reform themselves, otherwise collective progress remains nothing but a dream.

Title: Churchill's Greatness and the decline of Oratory

The art of oratory has declined in modern times due to dominance of writing, broadcasting and busy lifestyles. Unlike ancient speakers who valued polished speech. Modern speakers lack time for perfection. Sir Winston Churchill stands as a rare survivor of the golden age of oratory. His speeches were carefully crafted in thought and language, which represents

the finest tradition of English  
oratory. Over fifty years he  
addressed major national and  
global issues, and his speeches  
now form a historical record.  
Many of them will endure as  
models of great speech.
