8. CONCLUSION

Pakistan has been blessed by God Almighty along with some special supplications from its citizens as 2025 was indeed Pakistan's year. This year was a turning point for the country as compared to the previous years. Pakistan not only became victorious in brief four day conflict between Pakistan and India in May but also made successes in the global arena as well which included being invited to the Shanghai Cooperation Event, attending the largest Chinese military parade along with other world leaders, formed 2025 Artificial Intelligence policy for the country, openly condemned the Israel - Palestine conflict on many international forums and acted as mediators along with other Muslim countries ~~to~~ to resolve the conflict between Hamas and Israel. and last but not the least, signed the Saudi Pale defence Pact and emerged with a strong image in the international arena.

Previously Pakistan's image was very poor internationally. It not only emerged as a country who that is doing economically poor but also the poverty rate in the country was surging day by day. As Pakistan was under the IMF debts and had to increase taxes that it follow the IMF policies in order to be able to get back to its position before being too much indebted. Since the country was not doing good on international forums, the trade rate became very low, the tourism rate fell down because of the increase in the militancy after the federally Administered Tribal areas became a part of ~~Pakistan~~ Khyber Pakhtunkhwa. The leaders were trying their best to help the country to somehow improve its global image but in vain.

The year 2025 has become the year in which Pakistan's image was returning back as a country with a good reputation globally. Specially after the victory in

Operation Banyan ul Massoos that was conducted in an attempt to counter the attack from India, the Pahalgam attack, in a brief four day conflict in May. After defending itself successfully and emerging as a victorious country, Pakistan not only received praise from its citizens but also worldwide. The country was also invited to the Shanghai Cooperation ~~Event~~ ~~that was held~~ Organization Annual meeting that was held in China along with other world leaders. The Prime Minister of Pakistan also attended the largest Chinese Military Parade that was held right after the annual meeting. Not only Pakistan but other global powers also attended the parade.

Moreover, one of the biggest achievement this year would include the Pak - Saudi defence agreement that was signed between Pakistan and Saudi Arabia. According to this historic defence pact

between both the countries 'an attack on one will be an attack on all'. This particularly means that if Saudi Arabia is under attack Pakistan has all the rights to use its military and defence power to ~~protect~~ protect it which also includes the nuclear umbrella. and vice versa for Pakistan. Many of the details of this Pact have not been made public due to security concerns of the agreement. The global reaction to this defence pact was phenomenal which again shows the rising global image of Pakistan.

Another important achievement of Pakistan this year, that is 2025 are the initiatives taken for the development of Artificial Intelligence in political, social and global arenas by Pakistan. Pakistan developed its 2025 Artificial Intelligence policy in which included launching programs that would help all the students to achieve different

skills and provide them with clear access to the internet and computer facility - Pakistan not only developed its AI policy but also worked on incorporating the AI in making E-policies and start visible steps towards E-governance. A visible and clear example of E-governance can be seen through the E-signaling system in Sindh that has been operating successfully and smoothly without any hindrances and obstacles.

Furthermore, Pakistan openly condemned the Israeli attacks on Palestine on many international forums. It also confronted the Israeli spokesperson in the United Nations General Assembly for conducting an act of terrorism against Palestine and many Muslim countries. Pakistan has frequently urged for a separation of two Nations that is Israel and Palestine since this is the only possible solution on the table that could lead to end the terrorism attacks on

Palestine by Israel. Pakistan also acted as mediator along with Qatar and other Muslim countries to resolve the conflict between Hamas and Israeli leaders. Although that resulted in a disaster but despite all this Pakistan made every effort to resolve this conflict and vouch for a two nation resolution.

Last but not least Pakistan strongly and bravely encountered the Afghanistan attack on the country recently. Pakistan not only conducted a successful operation against terror attacks of Afghanistan without any incitement but also fought the military that is basically ~~Afgha~~ a part of Afghan propaganda.

So 2025 was indeed a year of Pakistan's successes where it not only ~~became~~ improved its global image but the sentiments of its citizens ~~or~~ completely changed. That is ~~became~~ more positive towards Pakistan. Hopefully Pakistan will maintain its image in coming years.
