Ans Q. #1 Translation 5

Literature is the pulse of any society which reflect its ethical and spiritual condition. When literature of any nation is declining we can easily predict that, that nation is going towards its fall. It is so sad that today's literature is not upto the mark and it is in control of the mafia. That writer who sell his pen for the sake of money, actually he sell his soul. Real literature is the one who stand with the truth and raise his voice against evil. even if it has to sacrifice. But in today's world it is rare to find these type of writers. Often writers bow their head in power corridors and through their writings try to get attention of elites. This is the dishonesty with the literature and betrayal with the nation.
