4) Conclusion

Muhammad Ali Jinnah "The Father of the nation" said in its sermon that, "No one can undo Pakistan" and, "Pakistan is a great nation. These statements from The Quaid explain the ~~vi~~ his foresightedness for the country that no one can stop Pakistan from getting success. Apart from the challenges Pakistan has faced from the day of its existence till today, Quaid always believed that Pakistan will be a successful and developed nation one day.

Pakistan has faced many challenges from the day of its existence till today. Many ups and downs ^{in the way of} came to Pakistan in past 78 years. From the first day, it faced developmental issues and political unrest. Apart of these issues, the people of Pakistan ^{and} never lost the hope always kept trying for its success. The nation has faced three major wars in its first 55 years and also lost one of its part "The East Pakistan". But the Nation kept trying for success.

Although Pakistan has faced many challenges in past 10 years which slowed down its development like the political unrest of 2017, the conflict with India 2019, the global covid virus, the political unrest of 2022 and at last the war with India in

"2025. All of these challenges slowed down the development of country. It faced severe economic and challenges, developmental, and societal issues in past several years. But, the things totally changed in the year 2025. In the year 2025, Pakistan regained its respect and success worldwide. There are several benchmarks achieved by Pakistan in the year 2025 which proved to be a turning point for Pakistan." Pakistan has gained enormous success in 2025 in almost every field. Like, economy, diplomacy, development, and international reputation. This success in almost every field is proved to be a turning point for Pakistan."

The economic stabilization, developmental initiatives, defence and developmental relations, international reputation, and successful Diplomacy are amongst the major benchmarks achieved by Pakistan which lead towards a turning point for Pakistan. Pakistan has took success in many fields this year which made the country thrive to thrive in the near future. This writing explains the developments that proved to be a turning point for Pakistan.

Following is the detailed explanation of the developments by Pakistan making this year a turning point.

Pakistan faced ~~major~~ major economic crisis in past several years due to several reasons.

There are certain natural conditions like Covid outbreak which caused economic crises. But, there are also several conditions like political unrest and lack of competency of the past government that lead it towards crisis. ~~But~~ This year of 2025 marked the coping of ~~past~~ economic crisis in Pakistan. All the major institutes and pillars of the government worked together to take the country out from the economic crisis. According to the international reports, the economy of Pakistan is now growing and Pakistan is now becoming emerging economy because of the efforts made in the year 2025. The government took several initiatives like strict tax collection and managing the exports and imports. The government also managed the trade and current account deficits. Due to which the economy regained its

potential. The government of Pakistan officially announced in the 2025 that the country is now out of the economic crisis. Therefore, the improved economy marked a ~~that~~ turning point.

Pakistan was also facing the default threats from past two or three years due to lack of repayment of loans. In the year 2025, Pakistan also managed its payments of loans. The government took strict action for money regulation and paid the installments of loans. Due to managing the loan payments it moved out of the default threats. In 2025, IMF officially stated that Pakistan is now out of default threats. As per reports, the Prime Minister of Pakistan also announced that the country is now out of threats of default. The country is now capable of successful management of foreign payments. Thus, it also marks a turning point for Pakistan.

In the year 2025, Pakistan received historical foreign investments and its exchange index has reached to about near to 2 lacs, the highest ever in history. Pakistan has

made many major trade and investment deals with the foreign investors this year. For instance, in the year 2025 a group of about 55 to 60 foreign investors from KSA came to Pakistan with their government officials and signed investment deals in Pakistan. Other countries like China, Russia, and Turkey also signed deals for investment in Pakistan as per the reports of government of Pakistan.

Pakistan also gained historical success against India in the war happened in May of 2025. India alleged Pakistan for attacking their territory and attacked several cities of Pakistan through missiles and drones. Pakistan answered them in their own language. As per the reports of ISPR, in May 2025, the army of Pakistan shot down 6 IAF jets and destroyed their major facilities including the Pathankot base. This enormous success of Pakistan in the battle field took is respect to peak globally and this is also a turning point for Pakistan.

Due to the initiatives of the government and other peacekeeping institutes, the tourism

came back to Pakistan in year 2025. The international tourists are now preferring Pakistan as per the reports of tourism ministry. Pakistan also hosted the international cricket tournament Champions trophy in 2025 which resulted in return of international cricket sports in Pakistan officially. These the points also prove to be the turning point as tourism and sports are the ways of interaction with the world and proving that our country is a safe country.

~~Pak~~ Pakistan also achieved major infrastructural developments in the year 2025. The infrastructure of the capital is rapidly developing directly under the eye of interior ministry. There are several developmental projects which are currently in process across the whole country. Like, the reconstruction of major roads like G.T. road and several major constructions in capital as well as in the major cities. The cricket stadiums are also redesigned.

In the year 2025, Pakistan also took the development initiatives in almost all fields of Pakistan. The provinces as well as

The federal government is taking steps for the overall development of country. The education budget is increased in federal as well as in provinces and specially Punjab province. As, the current government thinks that education is the only way to make the country successful. Other initiatives like PM laptop scheme, agricultural loans, efficient and eco-friendly public transport across the country, development of health system and improvement of the legal systems as well as police reforms ^{have} also took place in the year 2025. The development in the recruiting system of government institutes also took place. Many other initiatives also took place by the government which are proved to be a turning point.

Defence and developmental pacts are also a major achievement for Pakistan in the year 2025. The major pact that Pakistan signed in year 2025 is the "Mutual Defence Pact" with Saudi Arabia by which both countries ensured that they will stand by each other.

and all the capabilities of both countries are available to each other. Pakistan also signed a deal with Azerbaijan for the JF-17 Thunder jets. Pakistan will sell them JF-17 jets. Pakistan also signed major developmental and trade pact with USA in the year 2025 according to the State Department of USA, Govt. of Pakistan officials and international media. Pakistan also signed defence and trade deals with Turkey in 2025. In the year 2025, Pakistan has also signed defence and trade agreements with several other countries including China, Russia, UAE, Qatar, Iran and Central Asian countries according to the Government of Pakistan officials. Thus, the defence and trade pacts with several countries is a huge success for Pakistan and proves to be the turning point for Pakistan.

After the successful win against India, Pakistan has gained enormous reputation in the Islamic world as well as in the western world. Pakistan has now become

major hope for the Islamic world to defend their rights. All the Islamic countries praised Pakistan for their success in war and also seek help from Pakistan to defend the territorial integrity. The western world also praised Pakistan for its great success and steps taken by Pakistan. The President of US many times praised the PM and Field Marshal of Pakistan in his speech. So, the reputation of Pakistan is increased globally in the year 2025.

Pakistan has also achieved huge diplomatic success in the year 2025 in every field. The convoy of Pakistan lead by Bilawal Bhatti worked really well under the surveillance of government of Pakistan according to media officials. The diplomacy of Pakistan is proved very efficient and successful in the world because of the relations with the major powers as well as the friendly states. The officials and heads of government of Pakistan visited almost every major powers as well as friendly

states this year so that the efficient diplomacy is also proved to be turning point for Pakistan. Pakistan has also thrived in civil supermajority as well as democratic autonomy in 2025. The government of Pakistan also focused on the rights of minorities and encouraged the involvement of minorities in 2025. The initiative like the CM Punjab took for minorities and Prime Minister and other are proving to make an inclusive environment for all the religions in the country. For instance, the government official arranged and celebrated the Diwali with Hindu community. The CM of Punjab gave a relief for helmet to the Sikh community in December as they wear turbans over their heads. The government made sure the arrangements of Christmas celebrations for the Christian community. Every govt. official was ordered to facilitate them on their religious occasions. The efforts for this inclusive environment also proves to be a turning point for Pakistan. ~~Other~~ Privatization of PIA took place in

the December of 2025. It is sold for 135 Billion PKR. The privatization of PIA is also a great step taken by the government to stabilize the expenses of the government. As this institute is in loss from about past 20 years. The govt. was bearing the expenses of PIA. This step can also be proved to be a turning point because government now do not need to bear the unwanted expenses and now they can invest this amount in some useful manner.

At last, all of these reforms of that took place in the year 2025 are taking the country towards the title of Asian Tiger. As Pakistan is now emerging ~~em~~ economy amongst the Asian nations because of the positive outcomes in 2025. According to the reports of international institutes, Pakistan will also soon be the Asian tiger. So, this ~~this~~ step will also be proved to be a turning point for Pakistan which is because of the year 2025.

Apart from developments there are also certain challenges

Apart from the developments, there are also certain challenges that the country has faced in the year 2025 which are discussed below.

The economy of Pakistan has gained massive ~~stability~~ ~~stabilization~~ stabilization in 2025 but the issue Pakistan faced is the inflation challenge. The inflation remained at high level during the first half of the year specially. Prices remained high although the government reduced the prices. The markets remained at high prices. But in return, government took ~~act~~ great actions like price control management to control the inflation. The government made the price control teams which were ordered to control the prices. The government also faced the challenges of corruption in the year 2025 but they also took steps of internal audit of the government institutes to tackle the corruption.

In conclusion, it is evident from all of the discussion that the year

2025 is proved to be a turning point for Pakistan in almost every aspect. It is for sure that Pakistan has faced ~~dit~~ many difficulties in ~~the~~ past years and specially many crisis in the past 10 years also. ~~But~~ Apart from the crisis, ~~we can~~ say that it is proved from the discussion that the year 2025 has proved to be a great ~~and~~ turning point for Pakistan. Now it is another debate that will the 2026 also ~~to~~ prove to be a great year and turning point for Pakistan?
