Literature is the most fundamental part of a society, which depicts the moral and spiritual conditions. When a nation's literature is deviating, one can predict the nation is towards declination. Alas! the literature of the today's time has become vulgar and commercialized and the mafia has got control over it. The writers who ~~sell~~ their pen, in reality, sell their inner voice and consciousness. The real literature is that one which raise voice in favor of truth and against oppression, regardless of any sacrifice he will have to given. But such writers are hardly present in today's world. Most of the writers are seen at the doors of powerfuls and through their writings, they try to make those elites and powerfuls happy. This is a disloyalty and treason to nation.
