Title: The Dangers of Excessive Specialization

04/20

The modern hierarchical structure of knowledge has caused various difficulties to solve problems. A ~~single~~ specialized person is unable to meet responsibilities of whole life. In fact, specialized person analyses the world's affairs according to his own principles and patterns, like biologist analyse it according to biological makeup, and psychological analyse it, on the basis of human behaviour. The fragmentation of knowledge has created various difficulties to a problem of a common man, like the phenomenon of climate change has elaborated on the basis of different perspectives along with difficult words, which can not understood by a common man. However, the experts have

Q NO-2

06/20

In comprehension answer each question comprehensively

Do not be irrelevant in your answer

Please enhance length of each answer

Read the passage carefully

Q NO 1 What's fundamental error
does the author justify in the
popular understanding of tradition
and progress and why is this
error considered dangerous?

Answer: The author identifies
the fundamental error as the
belief that traditions end

✓ progress and enemies locked in opposition. This view is dangerous because it oversimplifies reality and creates the false division.

Q no 2: How does the author use the historical examples to challenge the notion of that progress requires abandoning the past?

✓ The author mentions the scholars of European Renaissance and the religious reformers have changed the ancient religious thoughts in scientific revolutions.

Q no 3: What does writer mean by describing tradition "a living conversation across generations" rather than "a static repository of dead customs"?

✓ Answer: The writer means that tradition is not a fixed set of outdated customs, but it is an ongoing exchange of ideas.
