The success in life is not merely the game of fate or good fortune, instead it is result of consistency, struggle and wisdom. However, offenly the paths are full of hard and unexpected hurdles, but who thrives through with courage and hope, they succeed by reaching their destination. Some people see

the success of others with envy. and make decisions in hurry, due to which they entrap in hands of unsuccessful. But those who give importance to experience and advice, they find opportunity in every problem. Those who understand their deficiencies and try to overcome them, they not only progress by themselves but also become inspiration for others. Simultaneously, those who are fond of gaining knowledge and new experiencies, they are able to make better decisions in their intellectual and practical field.

QUESTION:- 1

PRECIS WRITING.

Title :—

1   Advantages Of Informal Learning.

Precis :—

Learning takes place through both formal and informal way. The informal learning is gained outside schools, colleges and institutions. During these gatherings, people discuss about employment, family responsibilities, financial challenges, and practical problem solving strategies. The knowledge is transmitted in manner which is niether planned nor standardized through such exchanges but it is highly effective. The people acquire

skill such as cooperation, communication and judgement in family gatherings, community centers and places of worship. The people learn to adjust their perspective and accommodate alternative approaches in case of disagreements. The skills learned while assisting others may later influence workplace behavior or decision making within family. The reduced interactions may limit the exchange of practical knowledge and weaken social bonds which diminishes the informal learning.
