ANSWER all parts of the question
ASSIGN proportionate weightage to each part
Each question carries TWENTY marks

Test 4

Pakistan's Economic Challenges, Conditions, Problems and Performance of Major Sectors of Economy, Energy Problems and their Effects, Hydro Politics; Water Issues in Domestic and Regional Context

Q1. How can Pakistan reform its tax system to increase revenue collection, reduce reliance on external borrowing, and create a more equitable economic environment?

Q2. Given the political complexities surrounding energy privatization and public-sector inefficiencies, what role should public-private partnerships (PPPs) play in reforming Pakistan's energy sector to ensure affordability, accessibility, and sustainability?

Q3. How can Pakistan address the growing disparity between water availability in urban and rural areas, ensuring equitable distribution of water resources and mitigating social and economic inequalities caused by water shortages?
